

Unlock a seamless payment experience with Worldpay and Routeware.

Worldpay and Routeware have partnered to offer an integrated payment solution for Waste Haulers who want to remain focused on providing consistent service to their customers – and not burdened by payment processing. Routeware has partnered with Worldpay for their competitive pricing, strict adherence to regulatory compliance practices, and to be able to offer an integrated environment for Waste Haulers. We aim to save haulers money, streamline your workflows, and reduce risk.

BENEFITS OF A WORLDPAY & ROUTEWARE PARTNERSHIP FOR WASTE HAULERS:

Effortless Setup – Integrating payments into your workflow has never been easier. The only step you need to take alone is to terminate your existing provider. With Routeware & WorldPay, you will have access to an aligned team dedicated to ensuring a smooth migration process that meets your full workflow needs, without compromising the continuity of business. Payment processing will not be an afterthought in your workflow. When you go live with Elements, your complete environment will also go live – including payments.

Eliminate Manual Manipulation – Eliminate manual, batching of payment data. Your customers will be able to access the Elements Customer Portal to pay all invoices. Those payments then flow back into Elements for you to process & recognize that revenue seamlessly.

Integrated – All of your payment processes are integrated into your operational system, Elements.

- Charging of recurring auto-pay credit cards and ACH transactions
- Customer's ability to pay invoices via credit card within automated invoice delivery
- Customer sign-up for auto-credit card payments
- Integrated reporting of credit card payments

Compliance – WorldPay is already PCI DSS Compliant, which will soon be mandatory for all payment processors, and they handle the storage of all of your customer's credit card data.

Cost Efficiency – With WorldPay's size & scale, their competitive pricing structure allows for meeting or beating your current rates/fees.

Utility Pricing – Waste providers can qualify for Utility Pricing helping you further reduce processing costs and maximize your savings. WorldPay can help with determining your eligibility and the process of signing up for Utility rates

Join the more than 1 million businesses globally that trust Worldpay for their payment processing needs. Experience an integrated Waste Management & Payment solution with Elements & WorldPay. Ask to be connected to WorldPay via your Routeware Account Executive today. By providing a month or two of your current statements, we can provide a custom quote for your rates with WorldPay & Elements.
